

**EUROSTONE QUARTZ**

# **ADVANTAGES OF EUROSTONE QUARTZ**

Superior Benefits for Your Project

**EUROSTONE QUARTZ**

Premium Surfaces

## **EUROSTONE QUARTZ**

### **Exceptional Durability and Strength**

- Engineered with 93% natural quartz crystals
- Nearly twice as scratch-resistant as granite
- Mohs hardness rating of 7 (harder than glass or steel)
- Withstands decades of daily use
- Generous manufacturer warranties

### **Non-Porous and Hygienic**

- Completely non-porous surface
- Does not absorb liquids or harbor bacteria
- Prevents growth of mold and microorganisms
- Ideal for kitchens and bathrooms
- NSF/ANSI 51 certified for food contact

### **Zero Maintenance Required**

- Never needs sealing, waxing, or re-polishing
- Saves time and money vs. natural stone
- Resists stains from coffee, wine, and oils
- Simple cleaning with mild detergent
- No special pH-neutral cleaners required

### **Consistent Beauty**

- Engineered product provides color/pattern consistency
- What you see in showroom matches installed product
- No surprises like natural stone variations
- Easier design planning and coordination

### **Limitless Design Possibilities**

- 70+ designs across 4 collections
- Timeless whites to bold statement colors
- Patterns mimicking natural stone available
- Modern solid colors with recycled glass accents
- Multiple finishes: Polished, Grain, Rocplan

### **Environmental Responsibility**

## **EUROSTONE QUARTZ**

- Contains recycled materials including glass
- Used countertops can be recycled into new slabs
- Quartz more abundant than many natural stones
- GREENGUARD GOLD certified for low emissions
- Meets LEED v4 requirements

### **Increased Home Value**

- Premium material desired by homebuyers
- Durability and low maintenance highly valued
- Luxurious appearance commands higher prices
- Smart investment in property value

### **Superior Heat and Impact Resistance**

- Good heat resistance with proper precautions
- Less prone to cracking from impact vs. natural stone
- Peace of mind in busy kitchens
- Suitable for commercial environments

### **Certified Performance**

- NSF/ANSI 51 certified for food contact
- GREENGUARD GOLD for indoor air quality
- Carbon-neutral manufacturing in select collections
- LEED v4 compliant for sustainable building

### **Experience the EuroStone Difference**

- Italian craftsmanship meets cutting-edge engineering
- Superior performance with minimal maintenance
- Lasting value for kitchens, bathrooms, and commercial spaces
- Perfect choice for projects demanding the very best
